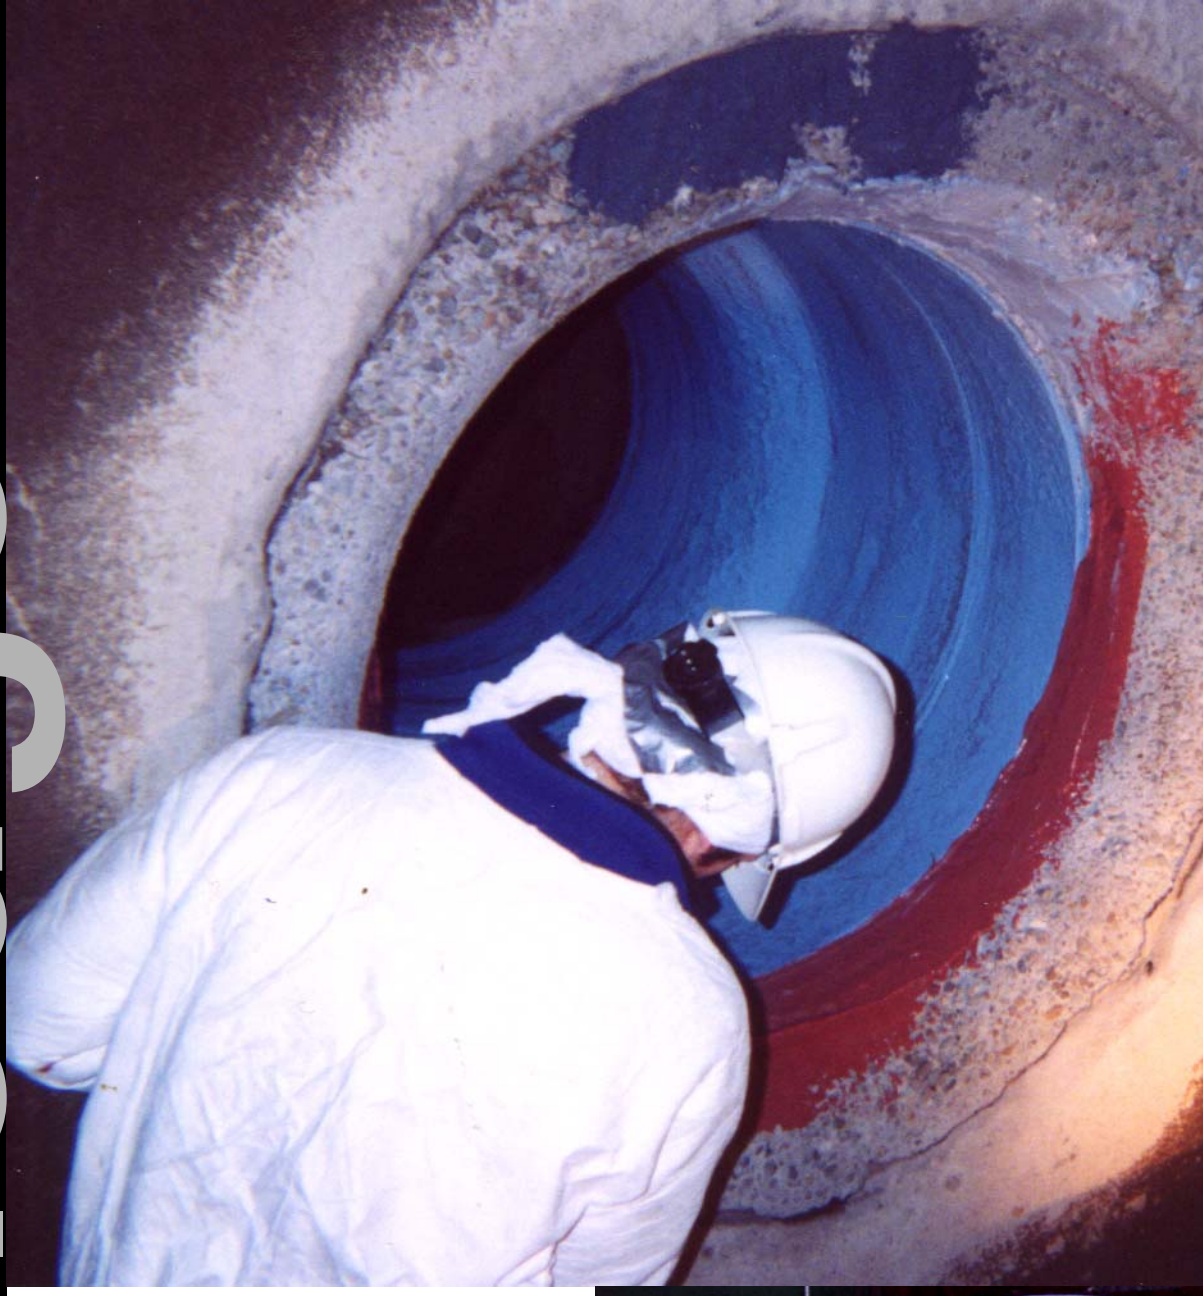
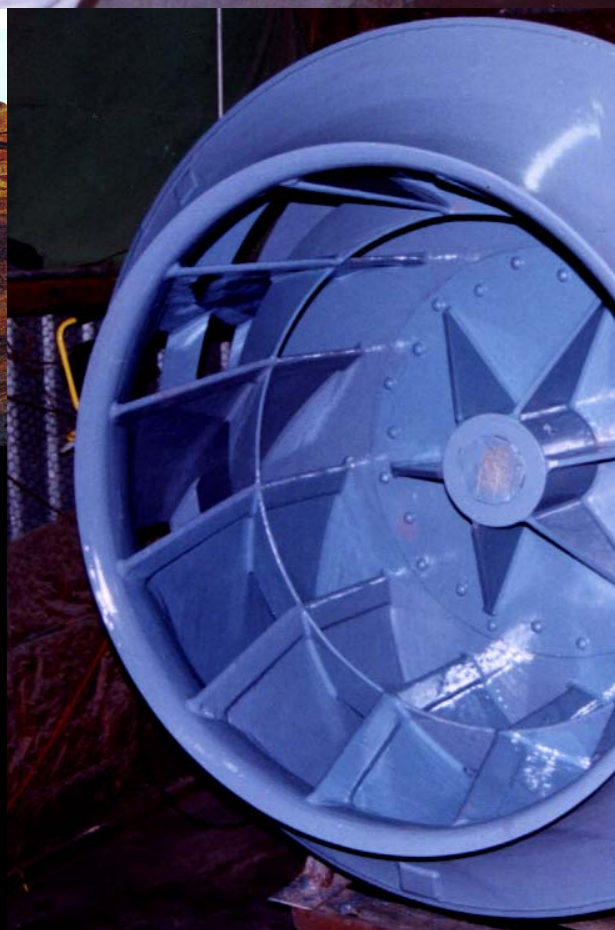
ARCOR

EPOXY TECHNOLOGIES

Technology In The Right Place—At The Right Time

Knowledge





ARCOR's time-tested, knowledge-based track record remains unparalleled globally

ARCOR® Leads the Way

ARCOR® is the proven pioneer in the development and application of epoxy-based systems—recognized worldwide as leaders in the epoxy industry since 1982.

ARCOR maintains its "best-of-market" product position in two ways:

1) Our chemists have a direct, "open-information exchange" with our supplier's chemists globally. This unique working relationship helps ARCOR to apply and perfect product innovations before the competition.

2) Our product formulation team works in the field monitoring product applications, and later, in the lab—refining for performance, ease of use, and actual field conditions.

Our knowledgable application crews treat each project with a singular focus—solving your existing problem and preventing future problems.

The formula has always been simple:

The Most Knowledge +
The Highest Level of Performance +
The Latest Innovations =

The Best Results.

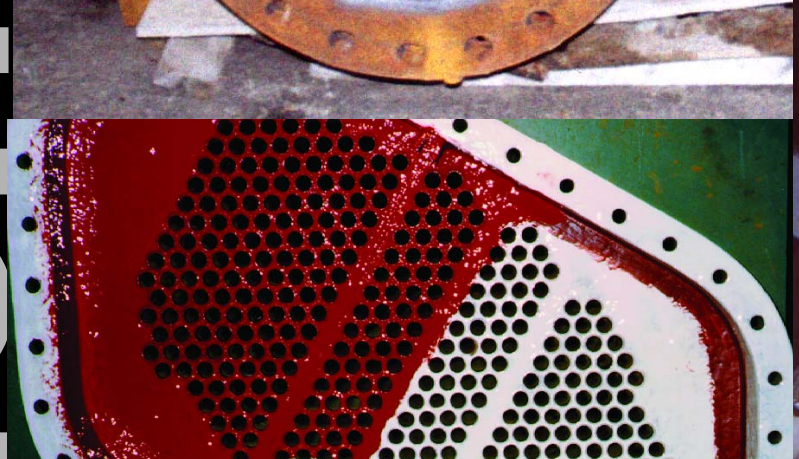
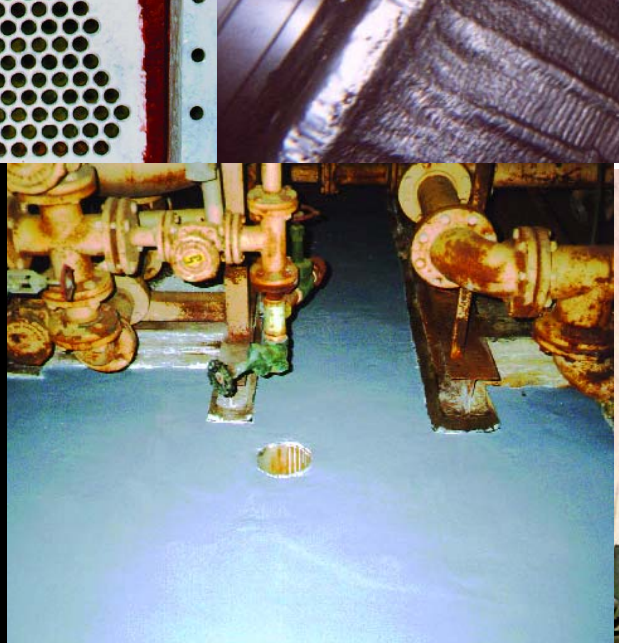
Performance



ARCOR's experienced field crews take great pride in solving difficult problems on site—whatever the project size.



ARCOR® on the Job

No two field projects are alike. ARCOR® takes great pride in finding customized solutions for each new problem, no matter what the scale.

ARCOR is a leading provider of industrial restorative technologies used in a broad range of components and environments:

- Cooling/Service Water Systems
- Tank Internals
- Secondary Containments
- Hi-Wear Systems
- Pump and Pipe Internals

- Salt water—Demin water
- Acids—Caustics
- Organic—Inorganic Solvents
- High Temperature
- Flex—Expansion

Years of extensive field experience combined with leading edge technologies in products and applications have made ARCOR industry's first choice in epoxy solutions.

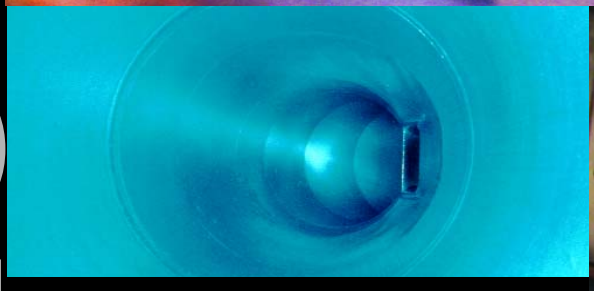
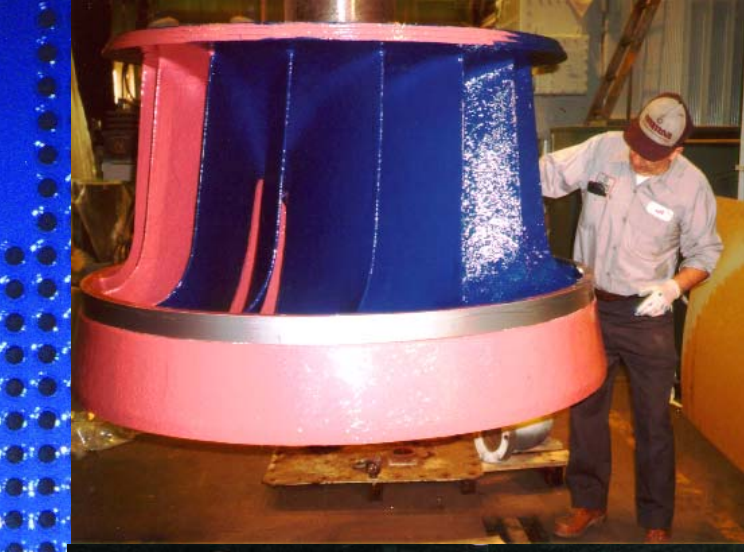
Innovation



ARCOR is commited to utilizing the highest state-of-the-industry standards in both products & applications.



ARCOR® Products Work

ARCOR® products are among the most advanced group of epoxy-based systems on today's market.

ARCOR is a leading designer and manufacturer of specialty epoxy coatings.This insures the stringent quality control standards necessary to provide superior performance in today's highly aggressive industrial environments.

Our network of chemists, engineers and industry specialists provide us with timely information needed to solve critical problems in the ever-evolving world of epoxy systems.

ARCOR is also an innovator in field installation and application—having pioneered the large scale spray application of 100% solids epoxy coatings.

ARCOR has been, and will continue to be, committed to the development of environmentally friendly products and application procedures—with an eye toward protecting our future.
